SRM KATTANKULATHUR DENTAL COLLEGE & HOSPITAL

Main University Campus

(SRM KATT. DENTAL COLLEGE AND HOSPITAL)

SRM Kattankulathur (KTR) Dental College and Hospital (Affiliated to SRMIST) is a major landmark at SRM's flagship campus at KTR offering Undergraduate, Postgraduate, and Doctoral programs in the field of dentistry.

The Dental College creates dental care for the future through state-of-the-art education and contemporary research. Established in 2007, the programs offered here are designed to meet the needs of ever-evolving and modern developments in the healthcare sector.

The Dental College strikes the right balance between the theoretical and practical components that are benchmarked against the healthcare organization standards. The dental college and the medical college at SRM are co-integrated with an attached 1600+ bedded super-specialty hospital, serving the healthcare needs of over 1 crore patients.

SRM is one of the largest multi-disciplinary higher educational institutions in India catering to over 45,000 students across 8 campuses in 5 states. Imparting education par excellence since 1985, SRM currently offers more than 300 programs in the fields of Engineering & Technology, Medicine, Dentistry & Other Health Sciences, Science & Humanities, Management, Law, Agricultural Sciences, and Hotel Management. The flagship SRM IST campus is situated in Kattankulathur (KTR) which is a 30-minute drive from the bustling city of Chennai.

Bachelor of Dental Surgery

Bachelor of Dental Surgery course is designed to train students to become dental professionals who can diagnose and treat various dental and oral health issues. The curriculum has been designed to train the dental graduates to acquire adequate knowledge, necessary skills and reasonable attitudes, which are required for carrying out all activities appropriate to general dental practice involving prevention, diagnosis and treatment of anomalies and diseases of teeth, mouth, jaws and associated tissues.

The graduates are also trained to understand the concept of community oral health and be able to participate in the rural health care programmes existing in the country.

The course covers various topics such as human anatomy, oral pathology, pharmacology, periodontology, orthodontics, and community dentistry, among others. The BDS course provides students with a comprehensive education in the field of dentistry, preparing them for a career as a dental professional.

Annual Fees :
INR 3,90,000

Registration Fees :
INR 10,000 (single payment)

Course Duration :
4 years + 1 year Internship
(Paid internship)

Stipend will be provided
during the internship

MDS - Conservative Dentistry & Endodontics

MDS - Conservative Dentistry and Endodontics is a 3 Year PG course that focuses on the diagnosis, prevention, and treatment of dental caries, defects, and other tooth-related problems.

The course also deals with endodontic treatments such as root canal therapy, re-treatment, and management of endodontic emergencies.

The curriculum covers subjects such as tooth-colored restorations, direct and indirect restorations, endodontic diagnosis, root canal instrumentation, obturation techniques, and various endodontic surgeries.

The course involves case discussions, weekly journal club meetings, clinical-theoretical seminars, literature review, lectures and an independent research study which leads to the submission of a dissertation.

After graduation, candidates can work as endodontists or conservative dentists in private clinics, hospitals, and dental colleges. Additionally, they can pursue teaching and research opportunities in dental colleges and research institutes. Graduates can also work in the public health sector, contributing to community health programs.

Annual Fees :
INR 14,00,000

Registration Fees :
INR 10,000 (single payment)

Course Duration :
3 years

Stipend will be provided for
all three years

MDS - Oral & Maxillofacial Surgery

MDS - Oral and Maxillofacial Surgery is a 3 year specialized PG course that focuses on the diagnosis and surgical management of oral and maxillofacial diseases and disorders.

The course curriculum includes topics such as maxillofacial trauma, maxillofacial pathology, orthognathic surgery, aesthetic facial surgery, temporomandibular surgery, facial reconstruction, craniofacial surgery and dentoalveolar surgery.

Graduates can work as oral and maxillofacial surgeons in various settings such as private clinics, hospitals, and dental colleges. They can also pursue teaching and research opportunities in dental colleges and research institutes. Overall, MDS in Oral and Maxillofacial Surgery provides graduates with specialized skills and knowledge, leading to a successful career in the dental industry.

Annual Fees :
INR 14,00,000

Registration Fees :
INR 10,000 (single payment)

Course Duration :
3 years

Stipend will be provided for
all three years

MDS - Orthodontics & Dento Facial Orthopedics

MDS - Orthodontics and Dentofacial Orthopedics is a 3 year PG course in the field of dentistry that focuses on the diagnosis, prevention, and correction of malocclusions or improper bites.

The program typically involves a comprehensive study of growth and development of the craniofacial complex, dental occlusion, facial aesthetics, and the biomechanics of tooth movement.

Students also learn about various treatment options such as braces, aligners, and orthognathic surgery to correct malocclusions and improve facial appearance.

During the course of the program, students gain practical experience through clinical training, seminars, and workshops. They also participate in research projects to develop a deeper understanding of the field.

After completing the program, MDS graduates in Orthodontics and Dentofacial Orthopedics can work as orthodontists in hospitals, clinics, and private practices. They can also pursue a career in academics and research.

Annual Fees :
INR 14,00,000

Registration Fees :
INR 10,000 (single payment)

Course Duration :
3 years

Stipend will be provided for
all three years

MDS - Paediatric and Preventive Dentistry

MDS - Paediatric and Preventive Dentistry is a 3 year PG course in the field of dentistry that focuses on the dental needs of children from infancy through adolescence, as well as preventive measures to maintain good oral health.

The program typically involves a comprehensive study of pediatric oral pathology, dental anatomy, dental caries, pediatric periodontics, and growth and development of the dentofacial complex. Students also learn about various preventive measures such as fluoride therapy, pit and fissure sealants, and behavioral management techniques to make dental treatment more comfortable for children.

During the course of the program, students gain practical experience through clinical training, seminars, and workshops. They also participate in research projects to develop a deeper understanding of the field. After completing the program, MDS graduates in Paediatric and Preventive Dentistry can work as pediatric dentists in hospitals, clinics, and private practices. They can also pursue a career in academics and research.

Annual Fees :
INR 12,00,000

Registration Fees :
INR 10,000 (single payment)

Course Duration :
3 years

Stipend will be provided for
all three years

MDS - Periodontology

MDS - Periodontology is a 3 year PG course in the field of dentistry that focuses on the diagnosis, prevention, and treatment of diseases affecting the supporting structures of the teeth, including the gums, bone, and periodontal ligament.

The program typically involves a comprehensive study of periodontal anatomy, periodontal disease, periodontal surgery, implant dentistry, and regenerative techniques. Students also learn about various treatment options such as scaling and root planing, periodontal flap surgery, and bone grafting to treat periodontal disease and restore the health and function of the teeth and supporting structures.

During the course of the program, students gain practical experience through clinical training, seminars, and workshops. They also participate in research projects to develop a deeper understanding of the field. MDS in Periodontics is an important program that trains dental professionals to diagnose and treat periodontal disease, which can have a significant impact on the overall oral and general health of patients.

By providing comprehensive care for the supporting structures of the teeth, periodontists help to maintain a healthy dentition and improve the quality of life for their patients.

Annual Fees :
INR 8,00,000

Registration Fees :
INR 10,000 (single payment)

Course Duration :
3 years

Stipend will be provided for
all three years

MDS - Prosthodontics and Crown & Bridge

MDS - Prosthodontics and Crown & Bridge course is a 3 year PG course that focuses on advanced training in the restoration and replacement of teeth. This program is designed to provide dentists with the skills and knowledge necessary to diagnose, treat, and manage complex prosthodontic cases.

The department provides good clinical care for patients requiring comprehensive and advanced phases of Prosthodontic treatment like occlusal rehabilitation, full mouth, rehabilitation, and implant supported prosthesis and extraoral/intraoral maxillofacial prosthesis.

Throughout the course, students will learn about various aspects of prosthodontics, including fixed and removable prosthodontics, maxillofacial prosthodontics, implantology, and esthetic dentistry. Overall, the MDS Prosthodontics and Crown & Bridge course is a rigorous and comprehensive program that prepares dentists to become skilled and knowledgeable prosthodontists.

Annual Fees :
INR 12,00,000

Registration Fees :
INR 10,000 (single payment)

Course Duration :
3 years

Stipend will be provided for
all three years

Life @ SRM A place to call home

SRM Kattankulathur Dental College and Hospital has invested in cutting-edge technologies fit for modern times. The campus has best-in-class facilities to enhance the learning outcomes for the students which include a state-of-the-art simulation centre and a 1600-bedded attached hospital integrated with the medical college.

The Dental College also ensures a pleasant homely stay at the campus offering air-conditioned hostels and mess facilities to create a conducive learning environment for the students.

The SRM Advantage

‘Learn, Leap and Lead’: Nurturing the thought leaders of tomorrow

SRM believes that the students of today shall become the thought leaders of the future in the domain of medicine and science. By fostering a culture of striving toward excellence, SRM Medical College nurtures all its students to identify their capabilities and push the limits to bring out the best in them. As a medical student, you will build a solid foundation while also staying in tune with the latest medical trends

Integrated Eco-system @ SRM

SRM encourages and leverages collaborations within the institution which caters to 45,000+ students and 3500+ faculty in diverse fields such as Medicine, Dentistry & Other Health Sciences, Engineering & Technology, Science & Humanities, Management, Law, and Agricultural Sciences. Through our connected eco-system, we serve as a platform for our medical students interested in pursuing interdisciplinary research projects and other collaborative initiatives

Think SRM, Think Healthcare

The programs at SRM Medical & Health Sciences include courses across the spectrum ranging from Medicine, Dentistry, Pharmacy, Occupational Therapy, Physiotherapy, Nursing, Public Health, and Allied Sciences. The objective is to create a broader panoramic view of the field by exposing them to the various aspects of the healthcare industry. We were also one of the few private medical colleges in India to successfully conduct the Covid-19 vaccine trials in association with ICMR - Bharat Biotech (Covaxin)

A Vibrant Social Life at SRM

Being under the SRM umbrella, the campus brings together students from diverse cultures and perspectives which enables opportunities for the students to make friends and create professional networks across a range of fields that will last for a lifetime. There are various student clubs and societies on the campus providing ample opportunities for personal and professional growth. A healthy body enables a healthy mind. With sports arenas built across the 250+ acre green campus, students can participate in a range of sports and other recreational activities inside the campus. The annual cultural events at SRM are considered one of the best in the country with students participating from institutions across India.

‘Bench To Bedside’ Learning: Learn How To Think And Not What To Think

SRM has developed an innovative ‘Bench to Bedside’ learning model. This application-based learning model coupled with a first-of-its-kind simulation centre developed in association with Harvard University helps our students’ experience hands-on learning in a unique manner. The curriculum is ‘NEXT integrated’ and is reviewed extensively every year to keep abreast with the latest developments in the field. With a high patient load at the 1600+ bedded super-specialty hospital, our medicos are exposed to numerous cases and surgeries performed regularly in each of the 30+ broad and super specialty departments

Culture Of Inclusivity And Diversity

SRM Medical College has a gender diversity ratio of 54% and a regional diversity of 58%. Students from multi-cultural backgrounds across India and abroad pursue programs at SRM. SRM is a truly multi-cultural campus where each idea and every perspective matters

Faculty Experience and Quality

The teaching faculty at SRM are highly renowned professionals in their field of study and research pursuits. A majority of our faculty are renowned surgeons, experienced academicians and seasoned researchers. They constantly enhance their skills being at the forefront of medical advancements in their fields and simultaneously impart knowledge of the highest quality to every student. With a robust one-on-one faculty-student mentorship program at SRM, the medical college ensures that no student is left behind in academics, professional growth, and personal development
